NASHVILLE, Sept. 15, 1860. The Committee appointed by the State Bu, read of the Seventh Annual State Fair of Tennessee to examine, and make award for was decided yesterday, the Court awarding | the best Family Sewing Machine, find on ex- Tullahoma, hibition the following machines in competition : the I. M. Singer, Wheeler & Wilson, A. B. Howe, and the Grover & Baker. The first three named, although differing in construction and capacity, still so far as the stitch is concerned, all arrive at the same point, makin the house, and is well known to the pa- ing what is called and known as the shuttle trons of the establishment. Mr. Green has stitch, each using a shuttle or shuttle and bobbin, upon which all the lower thread, or and is as clever a fellow as you will find on thread used underneath is required to be respooled. The Shuttle Machine may be used upon some classes of family sewing with a degree of satisfaction, but we conceive from their construction, operation and stitch, their principal adaptation is to the purposes of manufacture. The points we conceive most necessary and important to meet the wide

range of requirements in a machine for family sewing, we find more fully combined in the Grover & Baker-extent of capacity simplicity of construction, ease of management, advantage of using thread from two spools without rewinding; strength of work. and quietness of movement. We therefore make award to the Grover Baker.

The IRON being absorbed by the blood, and thus circulating through the whole system, no part of the body can escape their truly wonder. The experience of thousands daily proves that no preparation of Iron can for a moment be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in al-most every conceivable case. In all cases of female debility (fluor albus, chloroms, etc.), its effects are delightfully renovating. No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use. As a grand stomachic and general restorative
